CET APPRENTICESHIP PATHWAYS

UEE33020 Certificate III in Electrical Fitting

OVERVIEW

This nationally accredited qualification provides participants with the training, skills and knowledge to manufacture, fit, assemble, erect, operate, test, fault find, alter and repair electrical equipment; and includes electrical wiring work where that work is associated with assembling, maintaining, terminating or altering the wiring between electrical components within plant or machinery. The program directly supports the WA Electrical Fitting Apprenticeship.

CONTENT

This course has 21 core and 5 elective units of competency - visit **cet.asn.au** to view the unit details

REQUIREMENTS

This qualification is delivered under Australian apprenticeship arrangements.

A training contract must be signed through an

Australian Apprenticeship Support Network (AASN) and registered with the WA Department of Training and Workforce Development – Apprenticeship Office.

'On the job' training must be provided by an employer holding a current WA Unrestricted Electrician's Licence or a current WA Electrician's Licence endorsed for Electrical Fitting work only.

DURATION

40 weeks per year over a period of 4 years.

PRICE

The College of Electrical Training attracts the same financial support from the State Government as any other Registered Training Organisation ensuring there is no cost disadvantage to employers or apprentices. For further information regarding pricing*, visit **bit.ly/CET_ElectricalFitting_III**.

The Student tuition fees are indicative only and are subject to change given individual circumstances at enrolment. Additional fees may apply such as Student service and resource fees
